**1 postdoctoral research position
in the scientific project
"Defining (sex and age) cell-specific epigenetic mechanisms underlying Environmental Enrichment/Exercise as non-pharmacological intervention for Alzheimer's and Huntington's disease and related potential noninvasive biomarkers"
financed by the National Science Center
(grant agreement no UMO-2022/04/Y/NZ2/00116)**

Terms of employment
Selected candidate will be employed as full-time researcher (*pol*. adiunkt). The duration of employment is 24 months, starting from 1st May 2024. The offered salary is around 8500 PLN per month pre-tax. The position comes with no teaching obligations and travel budget. Selected candidate will work on problems in the field of analysis of OMICS-type data from mouse experiments.

Description of the project
In this project, we will be analyzing data resulting from ChIP-Seq and RNA-Seq experiments in mouse models of Alzheimer's and Huntigton's diseases. Our goal is identification of the role of regulation of certain genes in the context of different housing conditions (environmental enrichment) towards finding potential biomarkers for stratification of neurodegenerative disease patients with respect to their likely response to environmental therapies.

Requirements
We expect that candidates at the moment of employment hold a PhD degree in bioinformatics or related fields (computer science, biology, biotechnology) - the degree can be obtained no earlier than 7 years before the year of employment in project – and several years of experience in OMICS-data analysis documented in their published work in good scientific journals.

Applications
An application should include **Curriculum Vitae** that:
- presents an overview of the background and scientific achievements of the candidate;
- lists all the candidate's research works (including not yet published manuscripts).

In addition, there should be a **signed cover letter** addressed to the Dean of the Faculty of Mathematics, Informatics and Mechanics, University of Warsaw together with the **personal data clause** (attached).
On the day of submitting the application, the candidate does not have to hold a PhD degree.

Applications, as well as further questions on both the scientific topic of the project and formal details of the call procedure should be directed to prof. Bartosz Wilczyński: **b.wilczynski@uw.edu.pl**

In order to apply for the position, candidates should send an e-mail and submit the documents as attached .pdf files.

Application deadline: 23 March 2024

Applications which do not satisfy the above requirements or are submitted after the deadline will not be considered for the position.

The applications will be evaluated by a selection committee appointed by the Dean of the Faculty of Mathematics, Informatics and Mechanics, University of Warsaw. The committee may invite candidate to a meeting, which will be conducted remotely. The results of the competition will be sent to candidates electronically on 31 March 2024 at the latest.

The competition is the first stage of the recruitment process as described in the Statute of the University of Warsaw, the recommendation by the selection committee being a basis for its subsequent stages.
